Ceiling Secure Ambience Plus

How it works

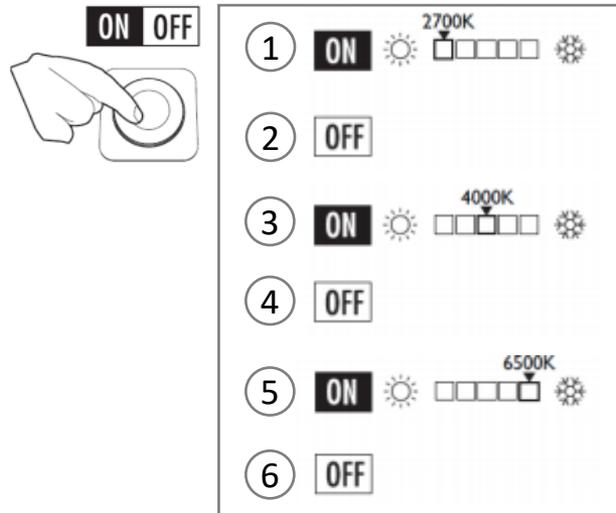

1. On switching OFF/ON within 6 seconds, color will change to Natural White
2. On further switching OFF/ON again within 6 seconds, color will change to Cool White
3. Any delay/power failure >6 seconds will reset the light to Warm White
4. Any switching less than 10 milliseconds will not relay to the next color mode

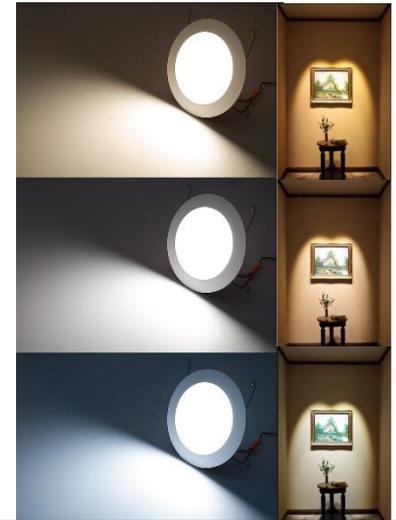

One CeilingSecure...3 light modes!
